

Democrat colleagues on finding the things that look like they work and do more of it.

I desperately hope we can find some Democrats who are less bathing in partisan rage, or whatever the proper term would be, and are willing to look at the math that would be good for all of us, good for the country, good for someone like myself who has a 5-year-old. I want her future to be amazing.

I truly believe our society is at the moment of an economic disruption that, if we can get policy right, the next couple of years can be pretty darn amazing. The next decade could be just awesome. But right now, our regulatory policy and our reimbursement policies aren't there.

How do we get the conversation to move back to things that will make this future amazing instead of just burying my 5-year-old daughter in more debt?

Madam Speaker, I yield back the balance of my time.
